MAJOR CONTRACT VEHICLES

- NITAAC CIO-SP3 SB
- POLARIS (SB, 8A PENDING)
- OASIS+ (8A PENDING, SB, HUBZONE)
- ITES-3S
- AIR FORCE SBEAS
- GSA MAS HACS & CLOUD
- SEAPORT-NXG
- SEC ONE IT
- JETS 2.0 (SB, 8A)

Ideas tested. Impact delivered.

- ▶ Rapidly prototype and evaluate emerging technologies
- ▶ Accelerate innovation from concept to operational reality

COMPANY OVERVIEW

Red Cedar Consultancy (RCC) is an SBA 8(a), HUBZone-certified, small disadvantaged business delivering innovation-forward digital services to U.S. federal agencies. Leveraging CMMI Maturity Level 3 (DEV & SVC) and ISO 9001, 20000, and 27001-certified frameworks, we ensure that every pilot can scale into a secure, high-performing operational system.

CORE CAPABILITIES

We believe technology is not the solution—it's the enabler. Our approach is rooted in four guiding principles that define effective technology:

- ▶ It must be intuitive and user-friendly
- ▶ It must meet requirements and be delivered on time
- ▶ It must be secure, reliable, and available
- ▶ It must adapt and evolve with mission needs

These principles guide our delivery across our capability areas:

Mission & Business Applications

Modernize enterprise operations with connected digital platforms

- ▶ Configure and extend SaaS and low-code systems
- ▶ Develop tailored solutions streamlining workflows and services
- ▶ Integrate data and systems across agencies and missions

Infrastructure & Cybersecurity

Build resilient, automated environments that scale securely

- ▶ Architect and operate hybrid cloud platforms (AWS, Azure, GCP)
- ▶ Lead intelligent cloud transformation and application modernization
- ▶ Enable secure automation through DevSecOps and observability

AI, Data, & Analytics

Turn complex data into mission-aligned decisions

- ▶ Design scalable data ecosystems with governance in mind
- ▶ Deliver predictive and generative insights using ML and GenAI
- ▶ Apply our OXYGEN process accelerating adoption and decision velocity

Human-Centered Design

Shape intuitive solutions improving user outcomes

- ▶ Lead with UX research aligning tech to mission needs
- ▶ Design intuitive, accessible experiences meeting user needs
- ▶ Prototype and test iteratively to reduce risk and increase adoption

Enterprise Enablement & Training

Equip people, policies, and processes for lasting success

- ▶ Reimagine operations with business process reengineering
- ▶ Support enterprise architecture, governance, and policy development
- ▶ Design and deliver scalable enterprise training programs
